### **NEW DIRECTORS** FOR TRUST COMPANY

As the result of recent strong buying of the stock of the United States Trust Company by local and out-of-town interests, a marked change was made in the personnel of the board of directors of that institution today. At the regular annual meeting of the stockholders, held this noon, seven new directors out of a total of thirty were elected. About 600 stockholders voted.

A change in the directorate does not involve a change in the ownership of the bank, according to one of the officials. The ownership of the majority of the stock, he said today, remains the same.
